Upton College

Eben and Liz Upton

The co-founders of the Raspberry Pi Foundation, a charity that promotes the study of computer science in schools. The Foundation works to build confidence, understanding of ethical issues and a flexible mindset towards continual learning of new and emerging technologies.

Turing College

Alan Turing

Mathematician, computer scientist, logician, cryptanalyst, philosopher, and theoretical biologist. Turing's most notable work today is as a computer scientist. In 1936, he developed the idea for the Universal Turing Machine, the basis for the first computer. And he developed a test for artificial intelligence in 1950, which is still used today.

Clark College

Yvonne Young Clark

A pioneer in the field of science and engineering. Affectionately called the 'First Lady of Engineering'. She was the first woman to earn a bachelor of science in mechanical engineering from Howard University, to earn a master's degree in engineering management from the Vanderbilt University School of Engineering, and to serve as a faculty member in the College of Engineering and Technology at Tennessee State University.
